How to play it?

Gently move your Koshi by its cord, or hang it up, and it will play with the wind and carry you away in an unexpected melody. Either way, its astonishing, relaxing sound may leave you in quiet wonder. You can also use a chime stand.

Koshi Ocean is part of the **Earth Symphony** collection, four chimes inspired by **Mountain**, **Forest**, **River** and **Ocean**.

Your Koshi Ocean – Earth Symphony:

Ocean has a vast, deep and welcoming character. Its pentatonic melody is inspired by the ocean and may evoke boundless expanse and the movement of the waves. A pentatonic scale is built on five main notes, which is why Ocean's phrases always resolve gently and never sound tense. Since ancient times, the ocean has been seen as the origin of all life and as a symbol of the vast, unconscious depths within us. Its tides rise and fall like breath, teaching us that everything moves in cycles and returns. Standing before the sea, the mind grows wide and the heart grows quiet. Let this chime carry you out to open water, to float without effort and to feel held by something far greater than yourself.

The wood: Maple

The resonance chamber of your Koshi Ocean is made of maple, a fine, firm hardwood with a pale, luminous color and a smooth, even grain. Light yet strong, maple has long been valued in instrument making, from violins to guitars, for its clear, bright and carrying tone. Symbolically, the maple stands for balance, generosity and promise: in many traditions it is linked with abundance, the sweetness of life and the gentle healing of what is out of balance. A fitting wood for the ocean: light, open and full of clarity.

Enjoy your lovely new sound.
