How to play it?

Move your Zaphir gently holding it by its cord or suspend it and it will play with the wind carrying you away in an unexpected melody. Either way, the astonishing relaxing sound may leave you in quiet wonder. You can also use a chime stand. When moving by hand, make a circular movement for the best sound.

Each Zaphir chime offers its own unique power.

The 5 Zaphir Seasons:

Crystalide (Spring / green): The clear and pure sound of the Crystalide chime resonates with the Heart chakra, promoting spiritual connection and higher consciousness. The color green evokes our compassion and harmony. It heals and nourishes our souls and reminds us that love has such great healing power. Green invites us to open ourselves to life and the beauty of nature. Additionally, it represents Mother Nature (Gaia).

Sunray (Summer / yellow): The joyful and bright sound of the Sunray chime corresponds to the Solar Plexus and Sakral chakra, boosting personal power, confidence, and self-esteem. The sound of the Sunray is a lovely companion for mindful exercises and soundhealing and Yoga due to its fresh sound. The color yellow signifies encouragement to accept ourselves and recognize our own worth.

Sufi (Intermediary / purple): The Zaphir Sufi embodies the transition between the seasons of summer and autumn. It combines the elements fire and water, therefore violet is the perfect color for this chime. In the world of Chakra energy, the color purple holds great significance and power. This fascinating color is closely associated with the Crown Chakra, the highest energy center in our body. The Crown Chakra represents our spirituality, intuition, and connection to the universe.

Twilight (Autumn / red): The gentle and calming sound of the Twilight chime harmonizes with the Root chakra, fostering love, compassion, and emotional balance. The Zaphir Twilight with a slightly deeper base melody and some high overtones reminds of a sunny autumn walk. The Twilight chime impresses with its harmonious combination of deeper and higher tones. The alternating deep and slightly higher tones create a wonderfully relaxing experience without losing too much focus. It is ideal for mindfulness training or muscle relaxation exercises.

Blue Moon (Winter / blue): It's time to rest, time for relaxation, and time to gather strength. Due to its deep melody, it is also wonderful for chanting mantras. The sound and vibrations of mantra chants work on an energetic level and can have a healing effect. They can help to release blockages, harmonize the energy flow in the body, and expand spiritual consciousness. The Blue Moon can also be a wonderful addition to an incense ritual to enhance its energetic effect (Yule Nights).
